Changsha Maria Maternity Hospital Global Recruitment

长沙玛丽亚妇产医院全球点将

Changsha Maria Maternity Hospital, jointly built by Singapore International Women & Infants Hospital Management College and Taiwan Chungshan Hospital, is an international institution specialized in women's health, and focuses on women's healthcare, charming maintenance, maternal and child healthcare, hotel-style health park for women. The hospital is headed by Chen Fuming, an American academician in medicine, holder of the "UN's Lifetime Achievements Gold Medal" and President of Taiwan Chungshan Hospital. Changsha Maria Maternity Hospital, located at the riverside of Xiang River and north of Yuelu Mountain, has implemented the JCI accreditation system which is in accordance with international medical standard.

The hospital has absorbed and shared the global prevailing medical resources, firstly grasped the most advanced health care research results of women and infants from the United States, Germany, Korea, Singapore, Japan and other countries, and also implemented medical technical standards in high-quality.

Changsha Maria Maternity Hospital introduces the medical mode of "FCWI" (Fully Care for Women and Infants). The new idea is regarding the pregnant women as the healthy people, and in response to the whole process of health care on pre-pregnancy, during pregnancy, expectant, childbirth, post-natal, infants care and guardianship.

The hospital has achieved the new pattern of "global expert diagnosis and consultation", established the academic committee of global experts which is under the leadership of President

Chen Fuming. The world-class experts are in charge of the medical technology and using the remote video into the global diagnosis, so as to provide the most qualified and authorized international diagnosis and consultation to the client.

The hospital is committed to "the construction of 359 medical service system", and provide special service on Mother and Father toba University, confinement clubs, as well as healthcare butler service; the hospital has combined the modern technology with human civilization, with its European simple but fashion decoration, patients in this beautiful environment can fully enjoy the rehabilitation both in physical and psychological.

Changsha Maria Maternity Hospital, followed the cultural background of Hunan province, relied on the new medical system of international standards on women & infants, provides a fashion, happy and healthy lifestyle and meticulous care to women & infants in Hunan, to create the top brand in women and infants healthcare in Hunan.

As the first professional women & infants health institute jointly built by Singapore and Taiwan hospitals, Changsha Maria Maternity Hospital is going to face to the global and recruit more talent and capable staff to adapt the internationalization of Hunan. The hospital will set up the international medical platform for talented people, and sent them to Singapore, Taiwan and other places for further study. Changsha Maria Maternity Hospital will spare no efforts to fully establish excellent health team and offer a full range of care to women.

Global Recruitment Building up the International Medical Team

In order to meet the international high-end medical needs of women and infants in Hunan, the recruitment of Changsha Maria Maternity Hospital includes medical, nursing, and other senior management positions, using the international standards for selection.
